

# Lean Six Sigma® Yellow Belt

Lean Six Sigma Yellow belt is the first step into Lean Six Sigma training. This course you will follow the DMAIC methodology (Define, Measure, Analyze, Improve and Control) while learning the tools necessary to perform at a Yellow Belt level on a project team. This course is suited to those just entering the Lean Six Sigma arena as well as those preparing for Yellow Belt certification. This course covers the entire Yellow Belt Body of Knowledge to the level of the certification exam.
